# SECRET HARBOUR SALES OFFICE

Secret Harbour  
Western Australia

The purpose of the display garden reaching over 3 adjacent lots was to educate and encourage the local community to establish waterwise and efficient gardens that will flourish in the coastal climate.

Three separate themes were developed over the 3 lots. These being:

- Mediterranean
- Native
- Coastal

The gardens were all irrigated using sub-surface 'Teran' in-line drippers off a 125l/m bore
